## Warranty<sup>7</sup>

12-month/15,000-mile basic limited warranty<sup>8</sup>  
36-month/36,000-mile limited warranty on  
structure<sup>8</sup>  
10-year limited parts-and-labor warranty on  
roof skin<sup>8</sup>

<sup>1</sup> The height of each model is measured to the top of the tallest  
standard feature and is based on the curb weight of a typically  
equipped unit. The actual height of your vehicle may vary by  
several inches depending on chassis or equipment variations.  
Please contact your dealer for further information.

<sup>2</sup> The floorplans feature a wide-body design - over 96." In making  
your purchase decision, you should be aware that some states  
restrict access on some or all state roads to 96" in body width.  
Before making your purchase decision, you should confirm the road  
usage laws in the states of interest to you.

<sup>3</sup> The load capacity of your motorhome is designated by weight, not  
by volume, so you cannot necessarily use all available space when  
loading your motorhome.

<sup>4</sup> Capacities are based on measurements prior to tank installation.  
Slight capacity variations can result due to installation applications.

<sup>5</sup> Capacities shown are tank manufacturer's listed water capacity  
(W.C.). Actual filled LP capacity is 80% of listing due to overfilling  
prevention device on tank.

<sup>6</sup> Actual towing capacity is dependent on your particular loading  
and towing circumstances which includes the GVWR, GAWR,  
and GCWR as well as adequate trailer brakes. Please refer to the  
Operator's Manual of your vehicle for further towing information.

<sup>7</sup> See separate chassis warranty.

<sup>8</sup> See your dealer for complete warranty information.
